

# Licence Plate Lookup

Vehicle Logic **Licence Plate Lookup** is a powerful Licence Plate Number (LPN) search engine covering all passenger, light truck, and 4WD vehicles manufactured from 1990 onwards.

**Licence Plate Lookup** is the industry benchmark LPN search because results are matched and augmented by Australia's most comprehensive vehicle database – Vehicle Logic's Licence Plate Lookup provides:

- Make
- Model
- Series
- Factory tyre sizes
- Matching wheels and tyres

These results can be enhanced further with the latest Australian vehicle manufacturers catalogues through **Product Catalogues**.

As simple as entering a vehicle's licence plate number and state, **Licence Plate Lookup** requires minimum input for expansive results, eliminating user input error, such as vehicle series.

Using **Licence Plate Lookup** to search by LPN efficiently and effectively returns pinpoint accurate results, improving and streamlining the user experience.

## Who profits from Licence Plate Lookup?

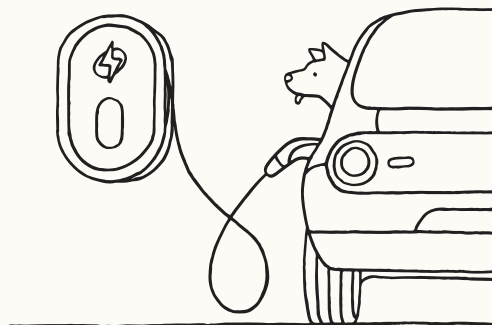

- Tyre and wheel retailers
- Tyre and wheel e-commerce sites
- Automotive servicing companies
- Automotive point of sale (POS) systems

With Licence Plate Lookup, you can be assured of cost optimisation.

In all instances, it operates on a 'pay per request' basis, suited to your bespoke requirements. This is seamlessly achieved through the Vehicle Logic Licence Plate Lookup dashboard where you can:

- Manage daily limits and set monthly budgets
- View a detailed breakdown of your usage, including by week
- Download a csv file of your usage log
- View invoices
